I understood after the public meeting that decisions would be made about smart meters & the installation of them in home. Ours was forced upon us by someone from APS who said if we did not let them change it out to a "smart meter" THEY would climb over the fence and install it (we have a locked gate for our dogs) in our backyard...OR ...we would have no electric service. How's that for intelligence & putting the consumer first. We called APS only to get a rep on the phone that stated "are you on a cell phone?" ...well the cell phone is not glued to our ear ALL the time, we were outraged. We asked if we could keep our old meter & pay extra to have our meter read every month. We were told that we needed to bring it up to the AZ Corporate Commission...thus this letter. The meeting was months ago and we consumers haven't heard a word ???

Now if anyone thinks they could soft shoe us on this ,I have two intercranial brain aneurysms and had been impacted by that darn meter sitting right by the pool we have used all summer & there is a difference from the old meter ,the one we want put back. We wrote to all of you for cause ,we want to know what options we have . Thank you . Sincerely, Len & Ruth Greco Phx,AZ
